Capstone Project

Cogent Infotech Batch 65
Group 6: Khoa, Abdulkarim, Prajesh

Links

- https://github.com/tenpointsdream/CapstoneProjectFullStack
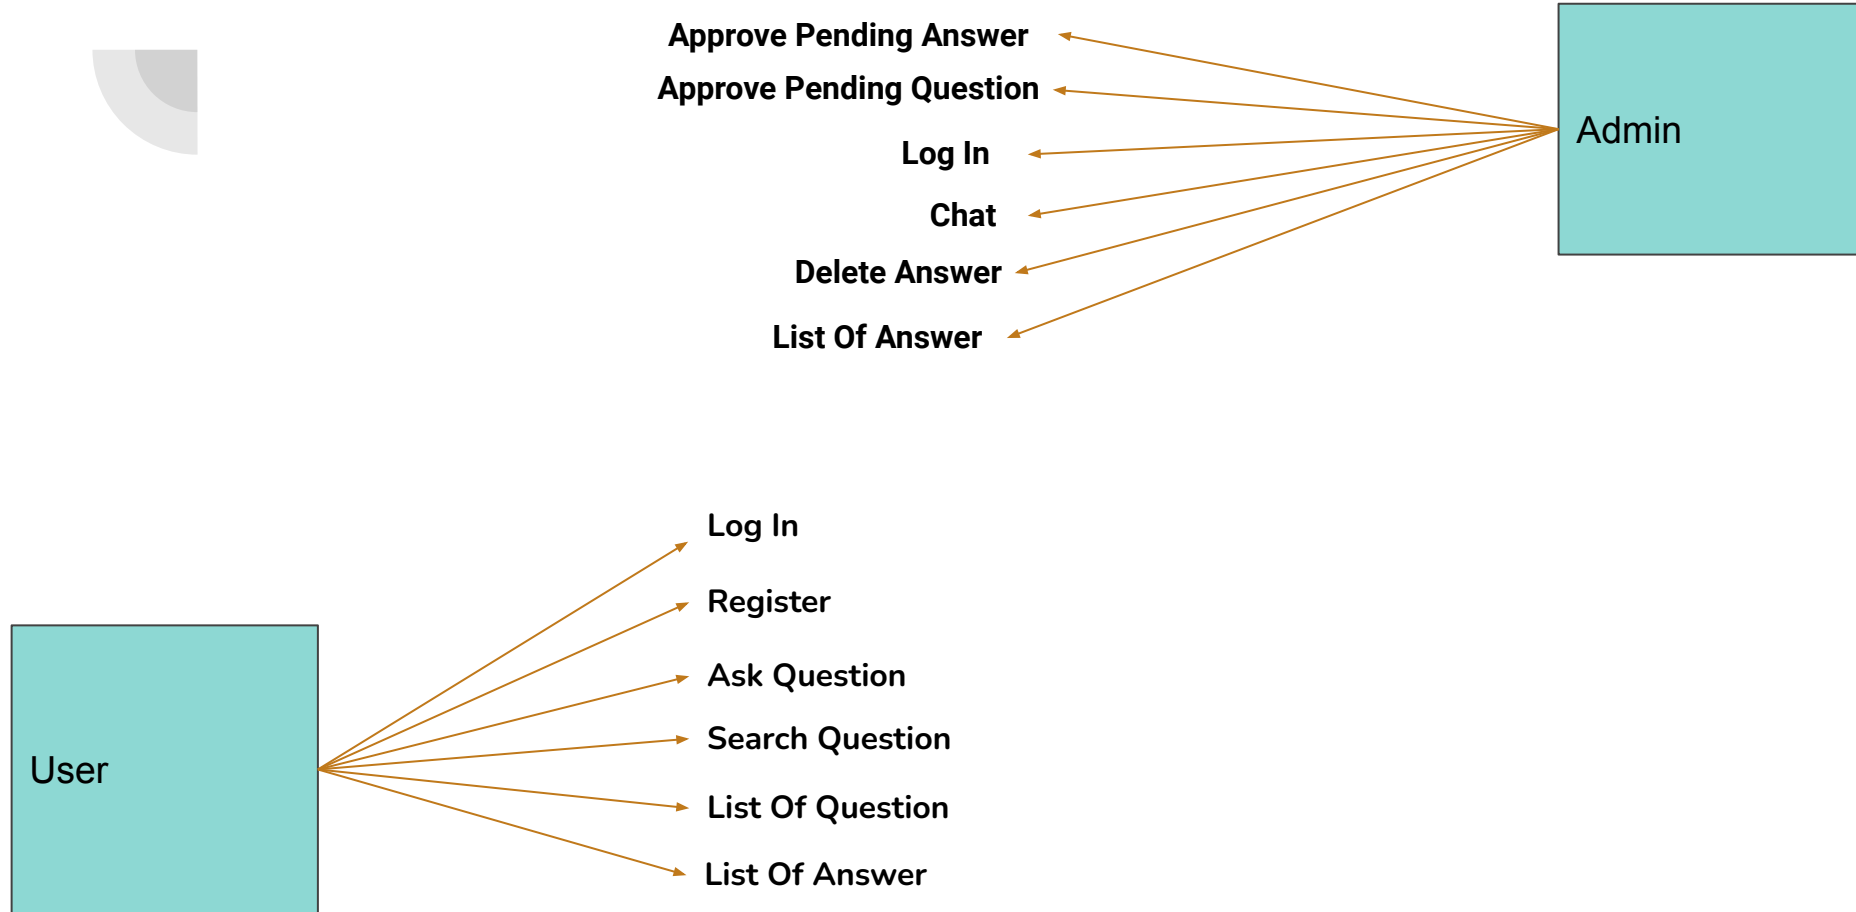

Why DoConnect?

- Q&A forum

- User can ask questions related to various programming and web development topics

  (Java, JavaScript, C/C++, HTML/CSS, Spring Boot etc) and answer questions

- Admin has the ability to delete or approve questions and answer

- Users chat among each other

- Admin receives email every time a question or answer is submitted

Password Encryption

- Storing passwords as plaintext not secure. Anyone with DB access also has password access

- SHA-256 hash function encrypts password in database, and when logging in

- One-way encryption, so hashed password cannot be decrypted
